MINUTES of 3/31 approved. Unanimous

RECREATION EF: Library/Human Services SubCom (Franclemont) recommended (by email) support of the budget as printed in the Budget Book. She stated that the BOS & the Parks Commission recommend fees to cover program (not field maintenance) costs and such fees will be assessed starting this Summer. VOTED Expenses \$428,625; Revenues \$424,688; Balance \$3,937. Unanimous

COA EF: Library/Human Services SubCom (Franclemont) provided (by email) a spread sheet that revises the Budget Book figures. She recommends a \$10k increase in the fund balance to be paid from the General Fund. Apparently this is to make up for loss of a State grant. Deyst to get details.

ART 80,81,82 TRASH COLLECTION: Jamieson reviewed the 3 articles and described various approaches that would encourage recycling by transferring part of the cost of trash collection and disposal to households in the form of fees proportional to the amount of trash put out for collection. A trash reduction of 20% is considered conservative. This would reduce the tipping fee about \$200k. The present total program cost is \$3.2m. Depending on the plan adopted, the revenue might range from \$1m to \$2.4m. A spirited discussion followed.

BALANCING THE BUDGET: Sullivan & Galkowski reviewed a plan (copies provided to FinCom) approved by the BOS earlier in the day. This plan would reduce the funds set aside for collective bargaining by \$1.2m which would reduce the deficit to \$1.1m. This collective bargaining set aside is considered more realistic since it does not assume both a 3% pay increase and a 10% increase in the total cost of health insurance. This reduces the reductions to \$436k for the Manager & \$615k for the schools according to the O'Neill formula. Sullivan considers these reductions manageable. He will have a more specific proposal by Wednesday.

ART 78 FIELD USER FEES: The Field Fee SubCom (Olsen) reported on a meeting held w/ representatives of the youth sports clubs and the Recreation Dept. No consensus has been reached. Olsen provided a spread sheet showing that the cost of field maintenance that could fairly be charged to non-school users is now estimated to be about \$270k. He also provided a list of suggestions from the users of how field maintenance could be better-handled. A lengthy discussion followed. Members thought that the process should be continued and that no action need be taken on the article at this time.

COMMITTEE: Mta scheduled for Saturday 4/17 from 9:00 to 3:00 at the Jefferson Cutter House.

Peter B Howard, Secretary, 4/13/04 Revised 4/14/04
